③ Find and store frequencies

1. Press 🔊, 🔥, ✈, 〰, or ☂. The service search starts in two seconds.

2. Press **ENT** when you find an interesting frequency (not applicable for marine or weather service banks). The bank number and *StorE* appear.

3. If you want to change storage banks, enter the new bank number.

4. Press **ENT** to store the frequency. The channel and frequency flash twice. To cancel the operation, press **TUNE/CLEAR**.

Program known frequencies

Refer to www.radioreference.com for a list of frequencies in your area.

1. Press **PGM**. *PGM* appears. Enter the channel number (1–200) where you want to store a frequency, then press **PGM** again.

2. Use the number keys and • to enter the frequency.

3. Press **ENT** to store the frequency into the channel.

4. Press **SCAN** to begin scanning stored/programmed frequencies.
